

HUPP AEROSPACE/DEFENSE and AERO PRECISION sign representation agreement

Livermore, CA - Feb 7, 2011- Aero Precision announced a new Partnership Agreement with Hupp Aerospace/Defense. The Partnership and Re-Sale Representation Agreement will extend Aero Precision's current worldwide fleet support through the inclusion of Hupp Aerospace/Defense UH-60 maintenance inspection HUPP KITS.

"All of the HUPP KITS meet the customer's periodic maintenance requirements and are recognized for their quality. Providing world-class service to our global customer base is essential" says Ron Root, Hupp Aerospace/Defense President. "Aero Precision's international military aftermarket support experience will help us to meet our foreign military customers' service goals with timely spare parts and repair support."

Hupp Aerospace/Defense is currently under contract to provide UH-60 Black Hawk Preventive Maintenance Inspections (PMI) kits to the U.S. Army at the 360-hour and 720-hour intervals ([part number H60PMI-1, NSN 1680-01-546-3560](#) and part number [H60PMI-2, NSN 1680-01-546-3545](#), respectively). This Sales Representation and stocking distributorship agreement gives rights to Aero Precision to meet international customers' periodic maintenance kit requirements.

A stocking distributor, Aero Precision has been selling OEM products since 1993. "By providing Hupp Aerospace/Defense Black Hawk kits to our international users with reduced lead times at competitive pricing, we are expecting to significantly increase their readiness rates" explains Ben Garcia, International Programs Manager for Aero Precision.

About Hupp Aerospace/Defense:

Hupp Aerospace/Defense is located near Ft. Wayne, IN and provides Tailored Kitting Solutions to industry and government. Their pledge of "Every Part, Every Time" consistently reduces cycle times 25-50%. Since 1978 Hupp Aerospace/Defense has been providing the U.S. Government, its allies and major prime contractors with products and third-party logistic services designed to improve readiness, lower maintenance costs, and increase reliability.
